

Ideamotive

We're Here to Make IT Hiring Easier

Become one of our **most satisfied clients**

Clutch ★ ★ ★ ★ ★ 4.9 / 5.0 based on 27 reviews

Millennium
bank

“What I appreciated the most was a clear and well thought-through candidate profile. Punctuations of key information and other seemingly small details made a big difference for hiring managers.”

Joanna
IT Team Manager, Bank Millennium

Carlsberg®

“We broke the record in negotiating and processing the framework agreement, which would not have been possible without your (Ideamotive) open and flexible approach.”

Krzysztof
Business Ethics & Compliance Officer,
Carlsberg

“Ideamotive seamlessly combines technical expertise with thorough understanding of our needs.

Their data managers' clear documentation and accessible communication kept both our team and management on track.”

Katarzyna
Pricing & Sales Analysis Manager, DHL

DHL

“Ideamotive is a key supplier to my division. I appreciate the partnership approach, the speed of action and the fact that when a problem or crisis occurs, I can count on them.”

Joanna
IT Project and Purchasing Manager, Orange

orange™

We provide IT Talents, With a guarantee of **reliability**.

Ideamotive is a Polish technology company specializing in **recruiting IT professionals and body leasing for corporate clients**.

To insure stability, our company maintains a minimum **8-month runway** as part of its financial strategy.

Scale Your Tech Team with Top IT Experts

Team Extension with Ideamotive is a flexible staffing model that allows companies to:

- quickly expand development teams with highly skilled IT professionals.
- ensure seamless integration with in-house team.
- provide expertise without the hassle of recruitment.
- boosts scalability, efficiency, and cost-effectiveness for tech projects.

And more ->

Try & Hire

You take over an employee after 12 months.

Pay-as-you-go

You only pay for actual work time used. (T&M)

Short-term contracts

Shorter contracts (1-3 mth) work well for fast-paced projects.

What **sets us apart** from other IT Vendors in the market?

Technical verification at the highest level

We make sure that our clients receive only the best-matched specialists. Instead of dozens of untested resumes, we provide **2-3 carefully selected profiles** that meet all technical requirements.

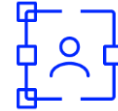

Transparency of costs through explicit margins

Full financial transparency is our priority. Clients know exactly how much each developer earns, which makes project management and communication much easier.

Guarantee of success and responsibility for the result

If a specialist fails to meet expectations, we respond immediately, offering replacement and ongoing support. Our talent care model and regular feedback ensure high customer satisfaction, as evidenced by our **NPS score of 72**.

Team stability thanks to minimal turnover

The satisfaction of our professionals is the key to our success. Thanks to our high level of satisfaction, we achieve very **low turnover rates of 8%** among corporate clients.

Our **track record** of working with multinational corporations

IT Experts with relevant experience

We organize our base of specialists according to their industry and project experience guaranteeing a high level of customization.

Building teams from scratch or scaling up

Thanks to our unique matchmaking process, we are able to identify team leaders with both technical and soft skills who are capable of building their own teams.

We have the trust of large companies

Corporate clients such as Orange, Millennium Bank, Carlsberg and DHL trust us with their most essential projects. **Full references are available upon request.**

Clients and experts remain with us for a long time

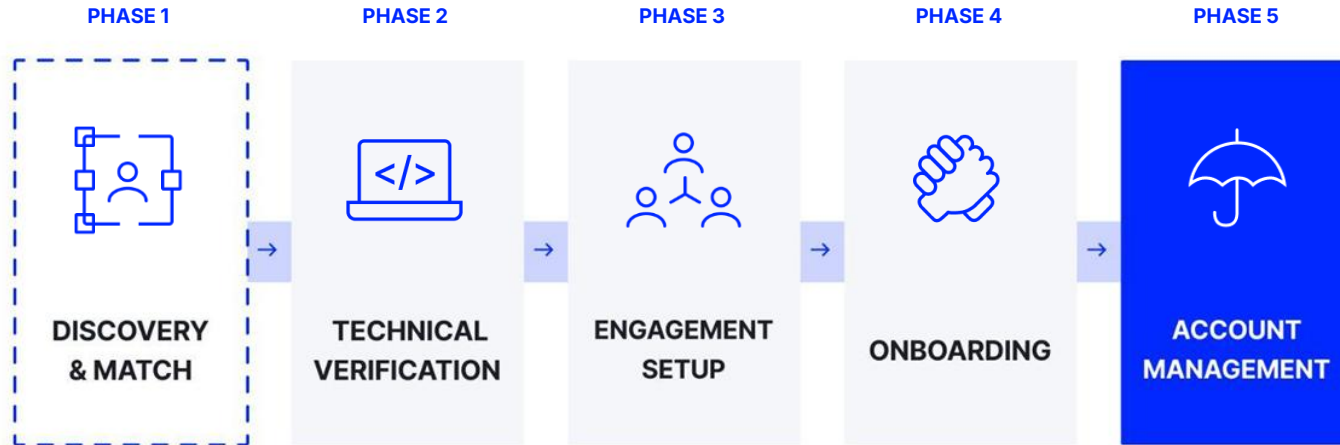

The average length of our specialist's engagement with a corporate client is 3 years and turnover is just 8%.

Handling 100% of inquiries

Having the capacity to handle both standard and high-specialization inquiries we never leave the customer unanswered.

What does our **process** look like?

8%
Turnover Rate

Thanks to advanced pre-screening in the matchmaking phase

48h
Response Time

From requirement gathering to candidate presentation

100%
Verified Candidates

All of our candidates are verified for technical skills, soft skills, and industry experience

PHASE 1: DISCOVERY & MATCH

Going beyond the offer sheet

Our assessment ensures we capture all technical requirements and cultural fit aspects as well as any other preferences about candidates that may not have been verbalized at this stage.

0% of other vendors have technical backgrounds, necessary to understand role requirements as well as we do

PHASE 2: TECHNICAL VERIFICATION

CV is not a candidate

Overwhelming you with CVs' does not speed up nor does it improve the quality of the recruitment process. This is why we provide a curated list limited to fully verified and well matched candidates.

100% of presented candidates have their technical skills, soft skills and experience relevance verified

PHASE 3: ENGAGEMENT SETUP

Close out to drive things home

We coordinate client-talent interaction, including rate negotiations and legal matters. Our transparent approach to contracts and financial terms has earned us trust among Fortune 500 companies.

87% success rate in engagement finalization

PHASE 4: ONBOARDING

Every step of the way, we're here to support you

Our structured onboarding process ensures smooth integration of talent into your team, covering technical setup, team integration, and initial project alignment.

96% client satisfaction rate (NPS) during onboarding

PHASE 5: ACCOUNT MANAGEMENT

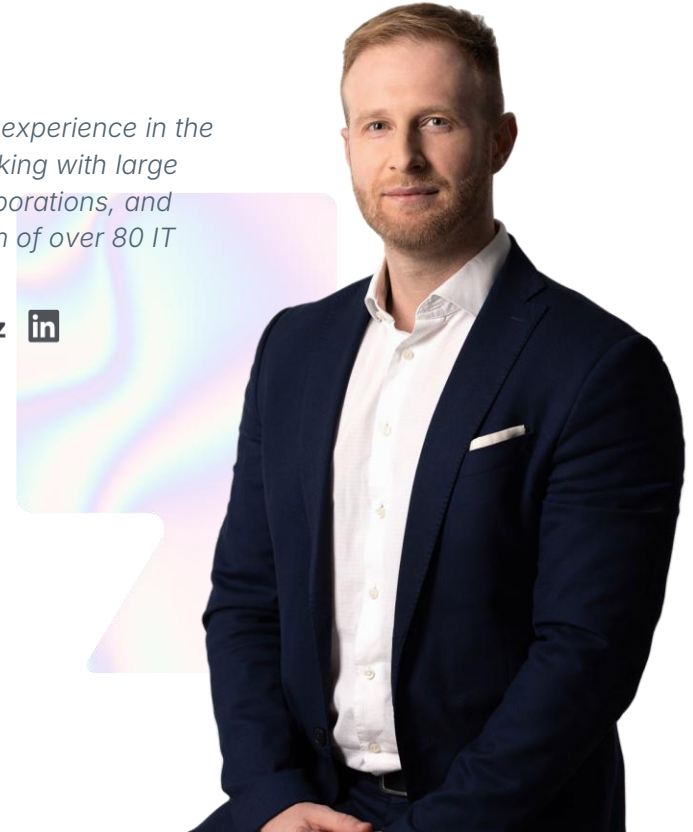

Continuous Support & Monitoring

Regular performance monitoring and motivation assessment ensure long-term success and satisfaction of both the client and the candidate.

4.98/5 CSAT score in ongoing management

Over 10 years of experience in the HR industry, working with large international corporations, and managing a team of over 80 IT consultants.
